

6th edition - November 20 to 27 2010  
SIEM REAP - CAMBODIA  
The first photo festival created in Southeast Asia

Created in 2005, the Angkor Photo Festival is the first such event to be organized in Southeast Asia. Each year, the week long festival showcases exhibitions and outdoor slideshows by celebrating international and emerging Asian photographers' works in Siem Reap. The temples of Angkor become a hub that draws both famous and passionate photographers from around the world in creativity and sharing spirit.

The strong educational goals of the Angkor Photo Festival set it apart from other photography events. During their stay, famous photographers tutor [Angkor Photo Workshops for emerging Asian photographers](#) and the festival also presents its outreach programs [Anjali Children's Photo Workshops](#).

For the festival's 2010 program, [110 photographers, including 50 Asian photographers](#), will present their works photographed around the world. This is consistent with the festival's mission of highlighting emerging Southeast Asian photographers. These works are curated by two well-known figures in photography, [Yumi Goto](#) and [Antoine d'Agata](#), as well as by [Françoise Callier](#) (Program Director of the Angkor Photo Festival).

All events at the festival are entirely free of charge !
