THE FIGHTING WOMEN 2022 SPRING/ SUMMER WOMEN'S COLLECTION

First women collection.

This is the first RYNSHU's women collection since his debut at the Paris Fashion Week. Designers, Rynshu Yamaji and Rieco Yamaji will, from now on, designed together. This project was slightly announced after presenting the first RYNSHU's perfume "1217" while the AW2020 Paris Fashion Week.

Strong, intelligent and dignity.

This are the words that would describe the RYNSHU's women inspired by the movie "Alita – Battle Angel", a sci-fi movie directed by Robert Rodriguez in 2019 in which Alita, the main character, wakes up in the future with extraordinary power very coveted by dark forces.

Women always adapting and evolving herself in a society that is in a constant move.

In every details there's an explanation.

Pointed shoulder, graceful silhouettes inspired by an hourglass and three-dimensional cut represent the strong-willed women.

Silk in different textures, organdy, chiffon and multi stretched satin will give bring sensuality to the silhouette, such as the leopard pattern and lips.
