**[ Love Me Softly, Hug You Lovingly ]**

**R Y N S H U** 2023-24 Autumn/Winter collection is about “Embrace You kindly, gently and elegantly with my unwavering Love, then you will light a fire in your heart.”

I blew on my hands to warm them, it's cold outside today. She hasn't come yet.  
I got the butterflies. The modified stretch quilted coat with gathers on the surface and elastic pile knit inside is very soft and comfortable touch, and lustrous velour-like quilted textile.

“ It's Warm ”

I just remember the day I met her for the first time. The white dress with flower-like three-dimensional fabric layered delicate see-through silk organza technically, it's sensitive, lovely and absolutely pure...

She is waving her hand and voice gets closer. My heart beat quickly.

The circle pattern quilted coat and skirt wrap her so lightly and fluffy.

Beating faster and faster...

The craftsmen's Love embrace our world forever.

The traditional tartan check tailored with sustainable British wool on bias is sophisticated and encourage the precious time to come around for me.

I just run through the city at night. I was a little embarrassed to buy a bouquet. She's waiting for me. I just run and run with a little box in my pocket...

She had already arrived. Chic outfit. The black and white elegant shiny jacquard mini-dress woven with thread made from recycled plastic bottle is really good on her and I can see her beautiful decorte.

Will she say “Yes” to me?

Their heart beats pounding...
